

The Human Touch

**When the word
On the street
When the chaos
When the heat
Makes your heart skip a beat
Know that we are of the same red blood**

**When we build up a wall
We have too far to fall
We are fragile one and all
Know that we are of the same red blood**

**So dance with me
Can we care too much
For our broken world
We need the human touch
It's so dangerous when we lose our way
Tell me, do you believe it, we're all gonna need it the human touch**

**When the news starts to break
Is it real, is it fake
When it all seems too hard to take
Know that we are of the same red blood**

**If we smash every wall
I'm a giant wrecking ball
It's the human race if we fall
Know that we are of the same red blood**

**So dance with me
Can we care too much**

**For our broken world
We need the human touch
It's so dangerous when we lose our way
Tell me, do you believe it, we're all gonna need it the human touch
Human touch**

**It's an S.O.S from the kids and me
There's no such thing as a planet B
Look after each other in these hard times
Protecting nature and animal kind
If we're mean and selfish everything suffers
Our beautiful world as well as each other
Our S.O.S is for kindness and love
Let's seek some goodness from above**

**If we smash every wall
I'm a giant wrecking ball
It's the human race if we fall
Know that we are of the same red blood**

**So dance with me
Can we care too much
For our broken world
We need the human touch
It's so dangerous when we lose our way
Tell me, do you believe it, we're all gonna need it the human touch
Tell me, do you believe it, we're all gonna need it the human touch**
