

Every Living Thing

When shadows play the lions run
Polar bear strides till day's done
A mother panda holds her cub
Elephant reaches high above

They all need a home
A land that they can roam
Sea creatures must dive deep,
through water, clean water

We sing for all the leopards
For the gentle giant blue whale
Our song is for saola
Before their last heart fails

Turtles digging in the sand
An intelligent orangutan
A javan rhino standing guard
California condor in the park

They all need a home
A land that they can roam
Sea creatures must dive deep,
Through waters
Clean waters

We sing for the gorillas
For our joyful dolphin friends
Our song is for the bees
On whom we all depend
We're singing for the forests
We're singing for the seas

Short Instrumental

We sing for all the children
With floods in Mozambique
Our song is for the people
Fleeing fire and heat
We must work together
For every living thing
