

Stand As One

We're a generation trying to be heard
We fight with our voices, we fight with our words
There's a situation we cannot ignore
Let's not hurt our planet anymore

It's a beautiful world that we're living in
We don't wanna lose one more living thing
It's a beautiful world but it needs our help
Let's stand as one
This fight is real
Help us help our planet heal

We're a generation growing up to learn
Species are endangered never to return
Science on the TV, science in our schools
Tells us that we need to change the rules

It's a beautiful world that we're living in
We don't wanna lose one more living thing
It's a beautiful world but it needs our help
Let's stand as one
This fight is real
Help us help our planet heal

Science on the TV
Science in our schools
Tell us that we need to change the rules
Tells us that we need to change the rules

It's a beautiful world that we're living in
We don't wanna lose one more living thing
It's a beautiful world but it needs our help
Let's stand as one
This fight is real
Help us help our planet heal

Let's stand as one
This fight is real
Help us help our planet heal

It's a beautiful world

We're living in
We don't want to lose
One more living thing

Let's stand as one
This fight is real
Help us help
Our planet heal
